Brief Functional Description: David-Link A-1300 Door Access Control System combines the security with the latest optional fingerprint recognition and RFID technologies. With its simple-to-use design, A-1300 offers the ultimate security that efficiently enforces authorized entries to specific areas. The software that comes with the system also allows you to view entry record reports to keep records of any event.

Unique Features:
- All-in-one Identification - Fingerprint, proximity, and/or password combination
- Large Memory Capacity - Store up to 3,000 fingerprint templates and 60,000 entry logs
- Smallest Standalone Terminal with a variety of rules for entry setup restrictions

Technology Advancements:
- Fingerprint Sensor - The fastest responding rate with the lowest failure rate
- IP based terminal allows you to install multiple terminals and track records from the same software by typing in individual IP address

A-1300 series biometric door access control

•OEM/ODM: David-Link has been the manufacturer of many recognizable office brands in the US for over 8 years.

•We are now accepting orders with flexible quantity. Ask about free tooling charge for producing your own brand name products.   We have a variety of designs available for OEM. Therefore, with a reasonable price, you can have the products with your own brand name and logo.

•Customized Software System to Meet Your Business Needs

•Manufacturer's Warranty: All David-Link products come with 1-year limited warranty. We also offer extended warranty for purchase in order to take care of customers' products longer and better.
